

Symbolic Material Culture within an Ancient Catastrophic Temple Complex

Dr. Henry Walton Jones Jr.

1984-01-01

Title

Section

Subsection

etc.

Introduction

This is a **totally made-up** study on a *completely* fictional archaeological site. But the data are *very* real.

Create a new paragraph.

Materials

Here is a list of excavation materials:

- Whip
 - for carefully excavating ancient material
- Hat
 - protection from sun
- Gun
 - keep away the cats

Order of priority:

1. Something
 - i) Gun
 - a. one more thing...
2. Stick
3. Whip
4. Hat

Methods

I just learned R, and couldn't wait to use it. I'm using R version R version 4.4.1 (2024-06-14).

Results

Table 1: This is a table.

Phase	mean	sd
disturbed	119.3333	32.03644
pre	105.7692	16.79359
post	103.8000	22.18558
euro	102.3333	20.54937
chi	80.2500	11.84272
NA	78.8750	32.37059

I did some things. I put them in Tabelle [1](#).

Here is a figure.

All burials are pretty much the same across occupation phases (Abbildung [1](#)).
